

Working for human rights in Iran: Volunteers and Trainees needed

You are fluent (spoken and written) in Farsi, English and maybe also German? You are interested in human rights in Iran? You oppose violence and extremism?

We would greatly appreciate your voluntary collaboration! We stand up for attaining and upholding freedom and equal rights. We work against torture, arbitrary detention, barbarian punishments, discrimination and the persecution of dissidents. You are interested in supporting this work with translations and research? We look forward to receiving your e-mail at info@igfm.de!
